

## Diversity & Attorney Development

Chamberlain Hrdlicka has a **Diversity and Attorney Development Committee**, a cross section of our attorneys, to foster an inclusive environment among our attorneys and staff and develop our future leaders. The Firm has long embraced the enduring values of opportunity for all, responsibility from all, and a community of all.

We further believe that the Firm, and more importantly, our clients will benefit from the many perspectives and talents of attorneys and staff from different backgrounds. The Firm also connects each associate with Shareholders who serve as Mentors to provide guidance and feedback on the practice of law.
