## Chamberlain Hrdlicka Named to U.S. News & World's 2025 Best Companies to Work For: Law Firms

February 25, 2025

**HOUSTON – Feb. 24, 2025** U.S. News & World Report, the global authority in rankings and consumer advice, named Chamberlain Hrdlicka again to the U.S. News Best Companies to Work For: Law Firms. The 2025 Best Companies to Work For: Law Firms list builds on U.S. News' Best Companies to Work for List, by analyzing how individual firms meet the needs and expectations of their employees compared to their competitors.

The list takes a look at the country's top law firms to help employees and job seekers make decisions about companies that may be a good fit for them by considering the following six criteria: quality of pay and benefits; work-life balance and flexibility; job and company stability; physical and psychological comfort; belongingness and esteem; and career opportunities for professional development. Of all the law firms considered, the ones with the highest composite scores were included in the list.

"Our inclusion on the 2025 U.S. News Best Companies to Work For: Law Firms list reflects Chamberlain Hrdlicka's ongoing dedication to fostering an outstanding workplace," said Larry Campagna, managing shareholder. "Our culture of excellence and collaboration enables us to attract top talent and provides our attorneys and staff with the support and opportunities they need to grow and succeed."

Chamberlain Hrdlicka fosters a workplace culture that emphasizes collaboration, well-being, and quality of life through a variety of initiatives. These include the Chamberlain Care Trust Fund, which supports employees facing financial hardships; a wellness program that rewards healthy habits; encouraging pro bono work; a robust benefits package; and a vibrant social calendar featuring community service projects and a variety of social celebrations.

To create the list, U.S. News partnered with Leopard Solutions and Revelio Labs to source relevant data, including employee sentiment and legal market research, to evaluate the six metrics used in the list. For further details on how the scores were calculated, see the methodology section.
