Additionally discovered evidence of collusion between the Plaintiff and an executive employee and interviewed and assisted with the termination of the same.
- Obtained multiple temporary restraining orders, including a temporary injunction, against buyer of multiple restaurants and declared buyer in default of multiple purchase and secured collateral agreements. Issues included buyers wrongful attempt to disqualify an arbitrator selected by name in a contract, disqualification of buyers counsel, re-possession of secured collateral at multiple leasehold locations, clients potential personal exposure due to buyers failure to file any required Texas tax reports, and multiple landlords and contractors attempts to hold client personally liable for buyers nonpayment of rent or services. Buyer ultimately was forced to reimburse clients fees and relinquish all secured collateral and some restaurant locations.
- Prosecuted indemnification and breach of contract claims on behalf of home builder against roofing and HVAC contractors for 31 homes with mold and subsequent inspection, remediation, and loss of use damages. Asked to take over 2 months before arbitration, multiple depositions were taken and all claims were resolved for the majority of the clients damages, including recovery of a significant insurance pay out originally denied 12 months earlier.
