

24/7 ACCIDENT RESPONSE TEAM

Motor vehicle accidents can result in serious injuries and even death resulting in complex litigation with claims against multiple parties. As part of the transportation legal services provided to firm clients, Foster Swift has assembled an after-hours emergency response team ready to aggressively protect a client's legal needs following a catastrophic accident. The team is available for legal support 24 hours a day, 7 days a week, 365 days a year. Members of the emergency response team can immediately proceed to the accident scene, take responsibility for preserving physical and electronic evidence, take driver and witness statements, retain claims adjusters and accident reconstructionists, make arrangements for cargo salvage, and manage relations with law enforcement.
