**F**our Holwell Shuster & Goldberg LLP partners have been named to Lawdragon's 500 Leading Global Bankruptcy & Restructuring Lawyers guide for the second consecutive year. Michael Shuster, Vincent Levy, Neil Lieberman, and Benjamin Heidlage are among 500 lawyers recognized globally for excellence in bankruptcy and restructuring matters.

The recognition reflects a period of sustained, high-stakes work for the firm's restructuring practice. HSG has been at the center of some of the most consequential bankruptcy and restructuring cases of the past decade, with a particular focus on complex liability management transactions.

Recent representations include acting for bondholders in connection with multibillion-dollar liability management transactions involving PetSmart, Travelport, and Incora. HSG also secured a significant victory for lenders in a dispute with Serta Simmons Bedding over its COVID-era refinancing — a ruling the *Wall Street Journal* described as a “landmark decision” with broad implications for corporate finance and restructuring practices.
