IPB partner Ben Grosz was a featured speaker on the panel "A Checklist for Your Retirement Plan Committee," at the PLANSPONSOR National Conference 2021 (PSNC) on June 22.

"As moderator of the panel, Jonathan St. Clair, chief fiduciary officer and managing director at SageView Advisory Group, asked Benjamin Grosz, a partner with Ivins, Phillips & Barker, to brief the audience on a retirement committee framework.

Grosz said the committee should have clearly defined responsibilities. "Have the company as the administrator, [and determine] who is actually going to do the things that need to be done, such as picking the investments or overseeing vendors and how can you be confident that they have the authority to do those things," he recommended."
