Ivins' attorney Benjamin Grosz was interviewed by CNBC about recent class-action litigation against 401(k) plans, as well as some high-profile (and large-dollar) settlements, and the impact of these developments on employers sponsoring 401(k) plans, fiduciaries, and plan participants. In an article entitled "Lousy 401(k) plans may spark more lawsuits" by Ilana Polyak, Mr. Grosz was quoted about the fiduciary risks associated with promoting rollovers from 401(k) plans into IRAs.
