Estate Planning

Tax

October 20, 2020

IPB is proud to be listed among the top ten "Ceiling Smashers" in the small firms category of Law360's *Glass Ceiling Report*. The *Glass Ceiling Report* is an annual survey of U.S. law firms, measuring the representation of women in their ranks. "Ceiling Smashers" are firms with the most women among their equity partnerships. IPB has a long history of supporting women attorneys; we elected our first female equity partner in 1973. In 2020, more than 45% of our equity partners, and more than 35% of our attorneys, are women. We look forward to continuing in our efforts to diversify the makeup of our attorneys and staff.
