Derek G. Pedrosi

Director of Information Technology

Derek Pedrosi oversees Miller Canfield's information technology systems to ensure secure and effective legal representation and client service. With more than 20 years of experience managing information technology and infrastructure, Derek is a proven leader and strategist. He is the driving force behind the firm's latest technology initiatives including WAN optimization, next-generation prevention technologies, and client security. His focus includes data security, cloud-based services, virtual collaboration, and continued modernization of the Firm's industry-leading technologies.
