Gabriel Saldívar Gomez

Of Counsel

Gabriel Saldívar Gomez is a corporate lawyer focused on designing legal structures that go beyond regulatory compliance to enable better decision-making.

From early in his career, Gabriel understood that effective legal counsel is not only about following the law, but about helping clients move forward with clarity and confidence. He advises companies, investors, and families on complex legal matters, translating them into practical and strategic solutions.

His practice centers on structuring transactions and legal frameworks that support growth, protect value, and mitigate risk. He regularly leads mergers and acquisitions processes, guiding clients through every stage—from due diligence to the negotiation of key transaction documents. He also advises financial institutions and companies on the design and structuring of credit, leasing, and factoring transactions, ensuring that each is supported by collateral structures aligned with both the risk profile and the commercial objectives.

In addition, Gabriel works with individuals and families on estate planning, developing structures such as trusts, wills, and other legal vehicles that provide long-term protection, clarity, and continuity.

Across all matters, he takes a practical and strategic approach, emphasizing clear communication, well-drafted agreements, and solutions that are not only legally sound, but effective in real-world operations.

His experience spans corporate law, real estate, mergers and acquisitions, estate planning, and regulatory compliance. His goal is to help clients make informed decisions, navigate complexity, and move forward with legal certainty and strategic vision.
