

## Building Energy Performance Audits (The Next Step in Property Assessments and Building Sciences)

---

February 9, 2012

Automation Alley (Troy, MI)

**Presented by East Michigan Chapter of the Air & Waste Management Association**

Discussions will provide valuable information for those involved with property assessments or transactions within the U.S., including insight on industry drivers, a legal perspective on the value and necessity of conducting a BEPA, and a discussion on the ASTM that defines BEPA.
