

Coffee With Counsel: ITAR, U.S. Export Controls + Sanctions: What All Exporters Must Know!

November 29, 2012

Miller Canfield (New York)

You're invited to join in-house counsel and corporate executives at the first **Coffee with Counsel** presented by Miller Canfield lawyers Joe Gustavus and Gurinder Singh. This intimate informal breakfast meeting is formatted to feature a hot topic over hot coffee.

If your company engages in exports or is active in or considering entering the defense, aerospace, automotive, software, IT, or telecommunications industries, you will want to join us to discuss:

- Basics of ITAR/U.S. Export Controls and U.S. Country Sanctions
- Registration with the U.S. Government
- Impending U.S. Export Control law Reform
- Consolidated Export Screening List
- Export Control Compliance Program

Penalties for non-compliance with ITAR and other export control laws are severe. How do you determine if your company is a 'defense contractor'? Is your product, service, or technology covered under export control laws? What obligations are associated with care, custody, access, use, transmission, and export of controlled items? This program will help answer these and other questions.
