

Webinar: Reducing Employer Risk through Effective Performance Management

June 9, 2016

3:00 - 4:30 p.m. (EDT)

Miller Canfield is the designated law firm for Michigan and Poland for the Employment Law Alliance, a network of the top labor and employment lawyers in the world.

More than ever, employers need to implement effective performance management in their workplace and provide managers with the necessary skills to resolve employee conflict, provide feedback, build teams, communicate effectively, and keep their cool in tough situations. Failure to engage in such a process can put employers at risk for such issues as litigation for harassment and workplace violence and bullying.

Employers must provide managers the support they need to develop the skills to effectively manage the performance of their employees and direct reports and HR managers must support managers by helping them understand the different phases of performance management.

Offered in partnership with CCA Inc., this webinar will provide employers with practical information and best practices regarding effective performance management.
