

Fundamentals of Harmonized Schedule (HS) Classification

April 25, 2019

8:30 a.m. - 3:30 p.m.

Miller Canfield, 277 S. Rose Street, Suite 5000, Kalamazoo MI 49007

Event Sponsor: Miller Canfield, Van Andel Global Trade Center, LR International

Understanding how to classify products under the Harmonized System (HS) is essential in keeping your global supply chain moving. HS classification is an important component in both export declaration for export shipments and the customs entry for import shipments. The HS classification is central to determining both export eligibility and import duty rates and taxes. The correct HS classification is also central to determining if products qualify for preferential tariff treatment under the many free trade agreements. **Click here for complete details/registration information.**
