Miller Canfield attorney **Barry Kaltenbach** participated in this on-demand webinar discussing Valuation/Valuing Lost Profits for Litigation Purposes. A competitor, contractor, or other third party has taken actions that have damaged a business in the form of lost profits. How do you measure the lost profits? Must you demonstrate lost profits with certainty? Over what period do you measure the lost profits? If the business has not recovered fully, can you include estimated future lost profits? These are all important questions in a lost profits case. This webinar addresses those questions and summarizes the different methods to measure lost profits, as well as some of the critical elements that must be considered in developing and presenting your damages theory in court.
