

Michael Sjuggerud Discusses How Changes to Flood Insurance Will Affect Central Florida Real Estate in the OBJ

The Orlando Business Journal
Orlando
4.7.21

Michael Sjuggerud, a partner in Shutts & Bowen LLP's Orlando office, recently authored an article in the *Orlando Business Journal (OBJ)* discussing the first overhaul in more than 50 years to rates for National Flood Insurance Program-insured properties, which will take effect October 1, 2021.

Citing collections debt due to deficiencies between insurance premiums received and claims paid, Michael breaks down the overhauled program known as "Risk Rating 2.0" and associated rate increases in the *OBJ* article. The change to flood insurance rates could impact both residential and commercial properties in Central Florida that are insured through the National Flood Insurance Program. In the article, Michael advises current and prospective property owners to prepare for Risk Rating 2.0 by researching the property's flood map designation, seeking input from an insurance agent, reviewing commercial leases, making inquiries with the local government and exploring flood risk-mitigation measures.
