

Stefan Rubin Speaks on Cybersecurity Panel

Orlando
11.4.25

[Stefan Rubin](#), a partner in Shutts & Bowen LLP's Orlando office, recently spoke on a cybersecurity panel hosted by Tech Rage IT and Nperspective CFO & Strategic Services on October 23, 2025, at the UCF Downtown Incubator.

During the event titled "Cyber Threats Unmasked: Insights from the Frontlines," Stefan and his co-panelists explored the best ways to help business owners navigate cyber risk and recovery. The panel focused on the current attack tactics being used to trip up privately owned businesses; what happens after a cyber-attack and why most businesses are unprepared; whether or not a business can survive a cyber hit; why cyber insurance matters and the different levels of coverage; and the truth about preventing cyber-attacks. Approximately 70% of all cyber attacks are on small and medium sized companies, and approximately 2/3 of those companies which are the victim of an attack go out of business within a year.

About Stefan A. Rubin

[Stefan Rubin](#) is a partner in the Orlando office of Shutts & Bowen LLP, where he is a member of the Corporate Practice Group. Stefan concentrates his practice in general corporate representation, mergers and acquisitions, securities, and debt and equity financing. Stefan assists clients in structuring, negotiating and documenting their most important business transactions, both internal such as shareholders agreements and LLC operating agreements, and external complex business issues, such as strategic business relationships and distribution arrangements to employment, confidentiality, noncompetition and intellectual property licensing.
