

Shutts & Bowen South Florida Offices Recognized Among “Best Places to Work” by SFBJ

12.20.19

The *South Florida Business Journal* has recognized Shutts & Bowen as a finalist for its “2020 Best Place to Work” award in the large business category.

Every year, the *South Florida Business Journal* surveys employees of South Florida businesses and asks them why their companies should be named among the Best Places to Work. The *Journal* then recognizes the top 45 companies which are then broken out into three categories – from small (10-49 employees) to large (100+ employees). Companies are examined for team effectiveness, retention risk, alignment with goals, trust with co-workers, individual contribution, manager effectiveness, trust in senior leaders, feeling valued, work engagement and people practices.

“We are very proud of our South Florida team members and their hard work to fulfill our mission of providing the highest level of service to our clients,” said [Michael J. \(“Micky”\) Grindstaff](#), Shutts & Bowen’s firmwide Managing Partner. “To learn they feel appreciated and engaged by our firm reinforces the collaborative and thriving culture we have established.”

All companies will be honored at a lunch event on February 20.
