

REAL ESTATE

As a law firm with a Florida history dating back to 1910, we've served as trusted advisors to the real estate industry for many years. We counsel clients in some of the most active real estate markets in the state and the country, and have worked on major projects of regional impact.

Large developers of residential and commercial real estate call on our experience with multi-family home developments, office buildings, retail space, mixed-use developments and industrial properties. We also advise home builders, property owners, investors and real estate investment trusts (REITs) on legal issues involved in buying, selling and financing property.

While our real estate practice offers a broad scope of services, we also offer related experience in environmental issues, land use and zoning, construction, litigation and eminent domain.
